DINING TABLES

It's hard to imagine life in Australia without outdoor dining. The Aussie BBQ is deeply woven into Australian culture and adored by locals and visitors alike. An opportunity to unwind, lounge around the table, connect with friends and family and enjoy a tasty meal, what's not to love! In more recent times we've seen winter feasts and summer spreads make their way outside, giving people a way to connect with their outdoor spaces more frequently.

Our range of outdoor dining tables and sets gives you the opportunity to enjoy these moments in complete style. From the sleek white lines of the concrete Ossa oval shaped table and the sturdy timber and steel of the Granada rectangular table, to the sculptural shaping of the round Livorno table, these pieces are made to enhance your exterior spaces and dining experiences.

With outdoor dining more popular than ever, it's a perfect time to elevate your outdoor space with that carefully chosen piece of furniture. Our dining tables are a great place to start and can be paired with a large array of dining chairs and benches to take your next outdoor feast to new heights.
