

artisan EXTERIOR

FROM THE EARTH GLASS POOL TILES
Product Specification Sheet

FROM THE EARTH

A series of glass mosaics taking inspiration from the earth, its metamorphic nature and the characteristics that have formed over the millennia of time.

Made in Spain from 98% recycled glass, this collection of large format tiles forms part of the Artisan Exterior Pool Tile Range and introduces a combination of cutting edge technology paired with a practical thermo polymer glue dot backing system.

Balancing the best in manufacture techniques, install requirements and an evolution in design capability, From the Earth is a captivating collection that dawns an exciting new era for the pool tile industry.
