Product Specification Sheet

# LINEAR & VERTICAL WALL CLADDING

Natural stone wall cladding is a great design ally as it adds textural and visual interest to both indoor and outdoor vertical surfaces.

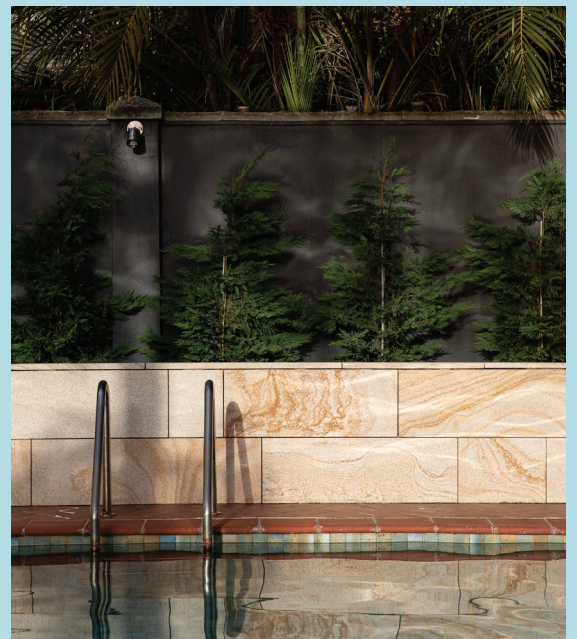

Pillars, fireplace surrounds, blade walls, outdoor barbecue areas and retaining walls can be easily transformed and enlivened with the addition of natural stone wall cladding.

Get inspired by the subtle beauty of Ligerio and Calcario's textures or embrace the bold, striking features of Preikestolen, a split face large format cladding perfect for open or wide surfaces.

Areia will amaze you, pairing the strength and durability of Granite with enticing Sandstone-like banding.

Our selection of vertical & linear wall cladding offers a versatile range that combines traditional stone-working methods with cutting edge design and manufacturing techniques.

Each product features a sawn back for an efficient installation without compromise in appearance.
