NATURAL STONE PEBBLES
Product Specification Sheet

NATURAL STONE PEBBLES

The humble pebble is a quiet achiever and a clever multitasker in the landscaping environment. Varying greatly in size, colours and texture, pebbles can decorate with ease, help with drainage, keep weeds at bay and cut down on any garden maintenance schedule.

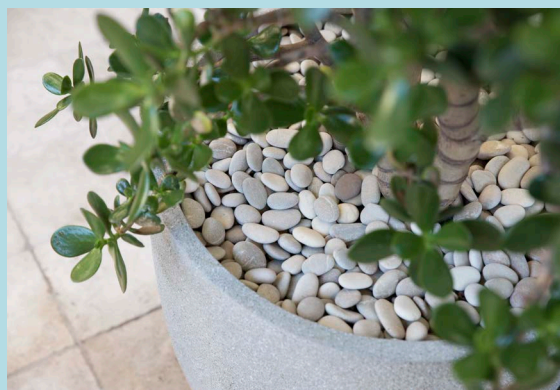

Stepping stones best friends, pebbles are a great, long lasting, mulch option on paths or garden edges and can really assist injecting any garden with that extra touch.

Whether you're looking to create a Zen inspired, meditative space or a practical drought tolerant garden, pebbles are the perfect solution for your design plans.

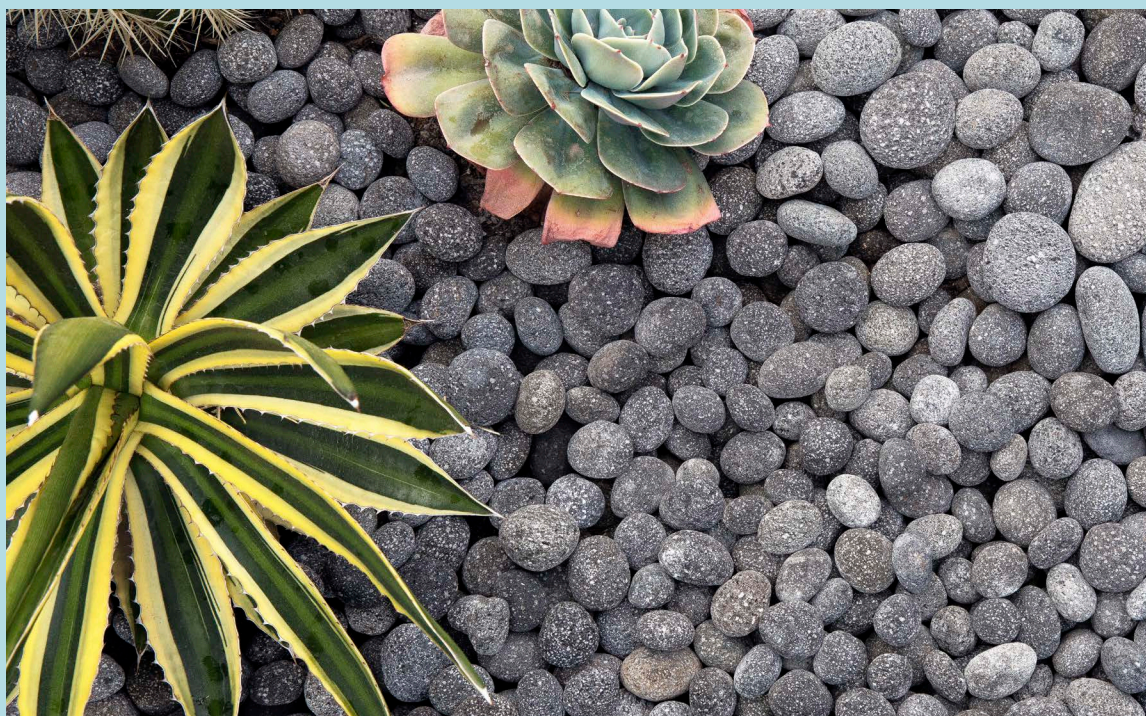

Great for adding a splash of colour, pebbles also work well in pots as a decorative feature and to protect the potting medium from drying too quickly.

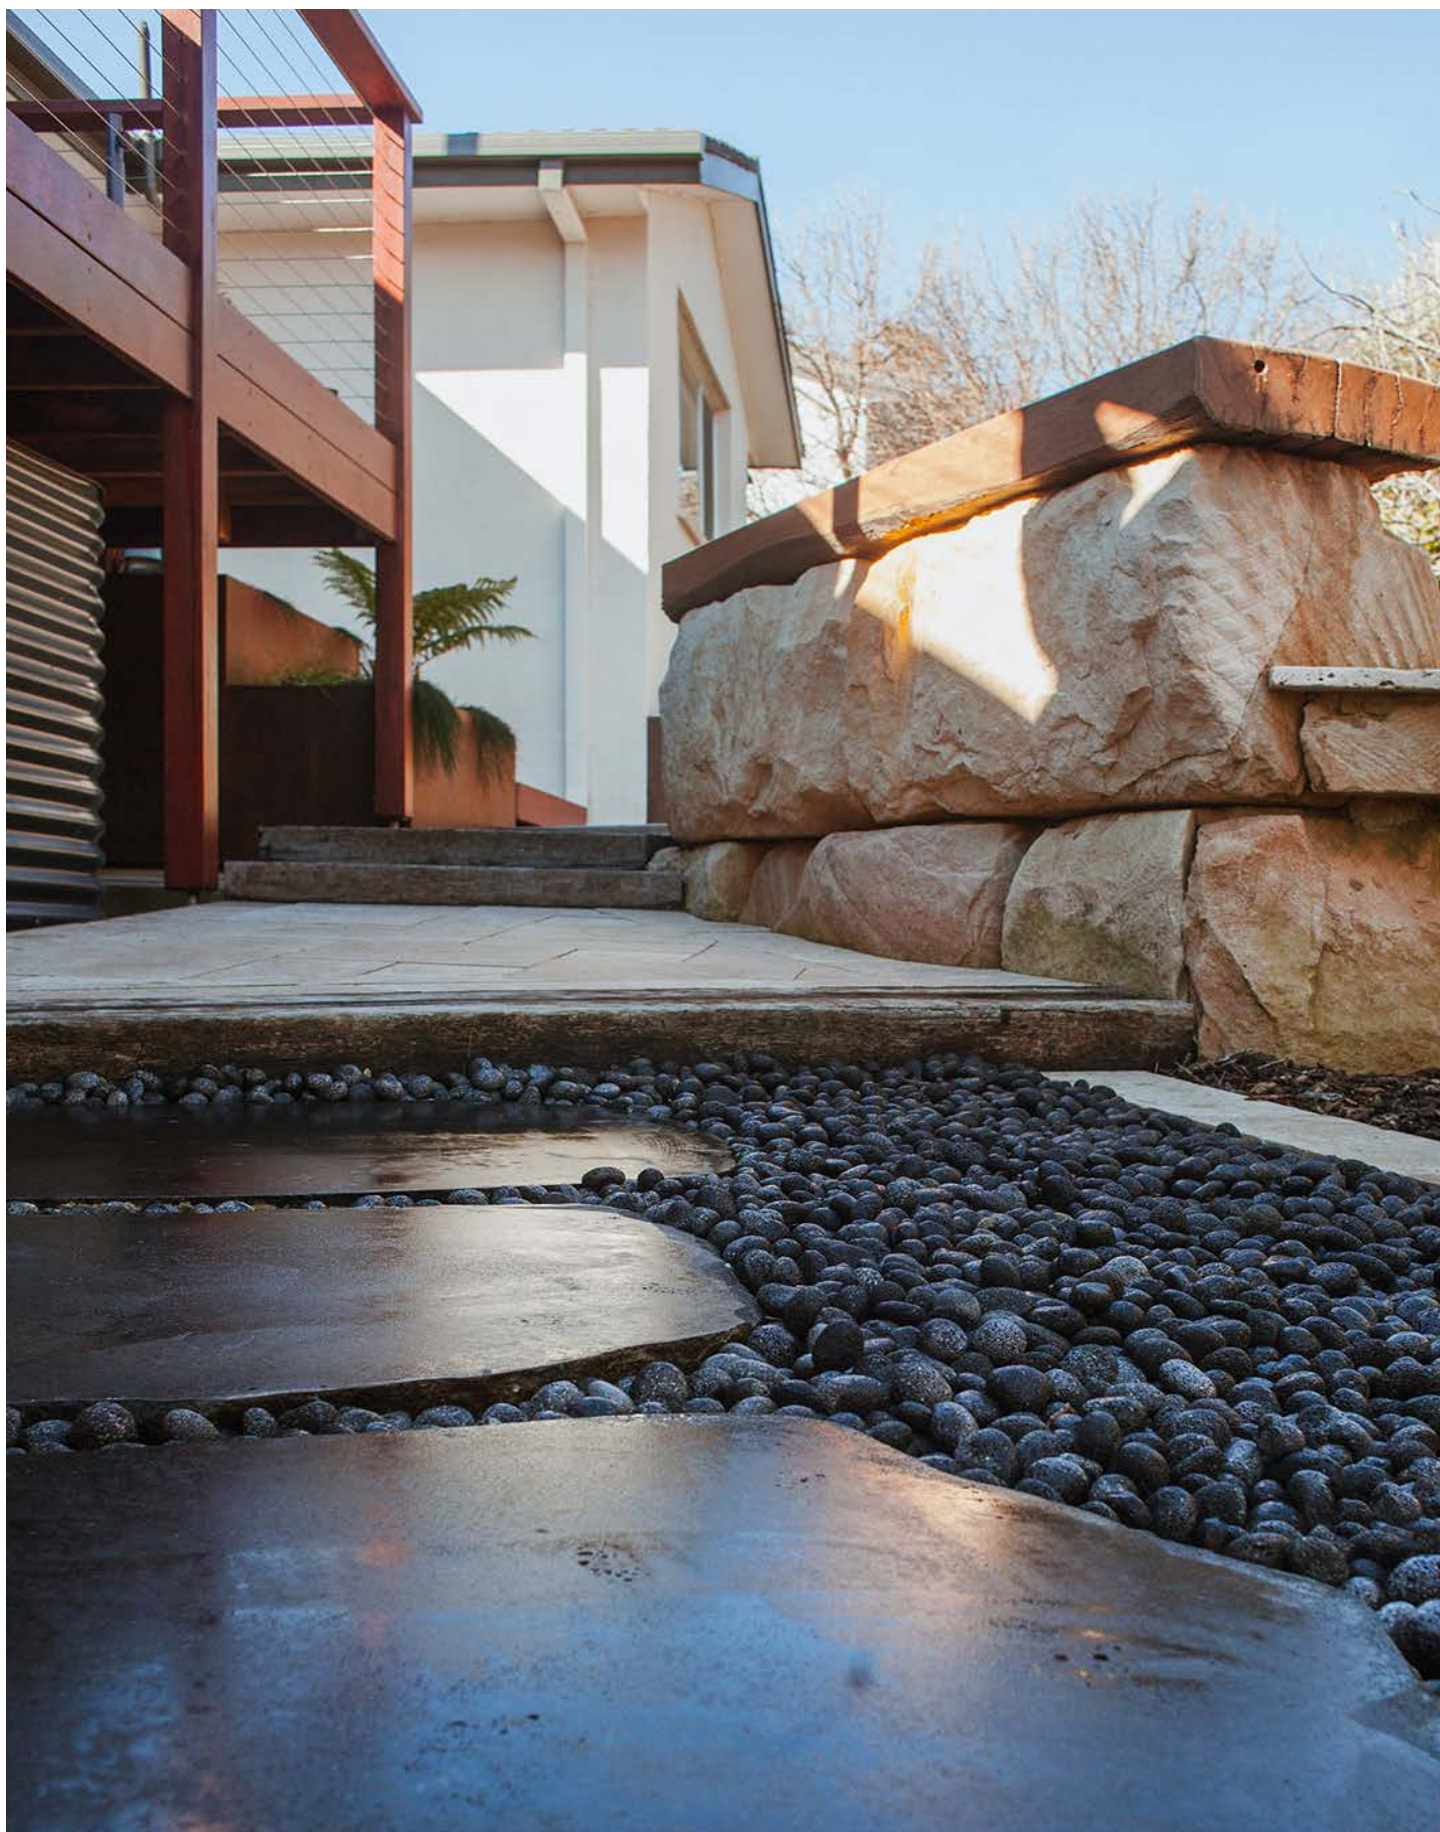

Products in our range can offer up to two different size ranges to better suit your landscaping needs and are supplied in handy 15-20kg bulk bags.
