UNICOLOUR & NIEBLA GLASS POOL TILES
Product Specification Sheet

UNICOLOUR & NIEBLA

Manufactured in Spain in one of the oldest glass mosaic tile and pool tile manufacturers in Europe, our Hisbalit range is a practical and highly durable solution for all kinds of pools.

Made entirely in Spain from 100% recycled glass and natural pigments, our range is easy to install and to maintain thanks to its thermo polymer backing system.

A careful selection of colours is available to suit a diverse range of designs.

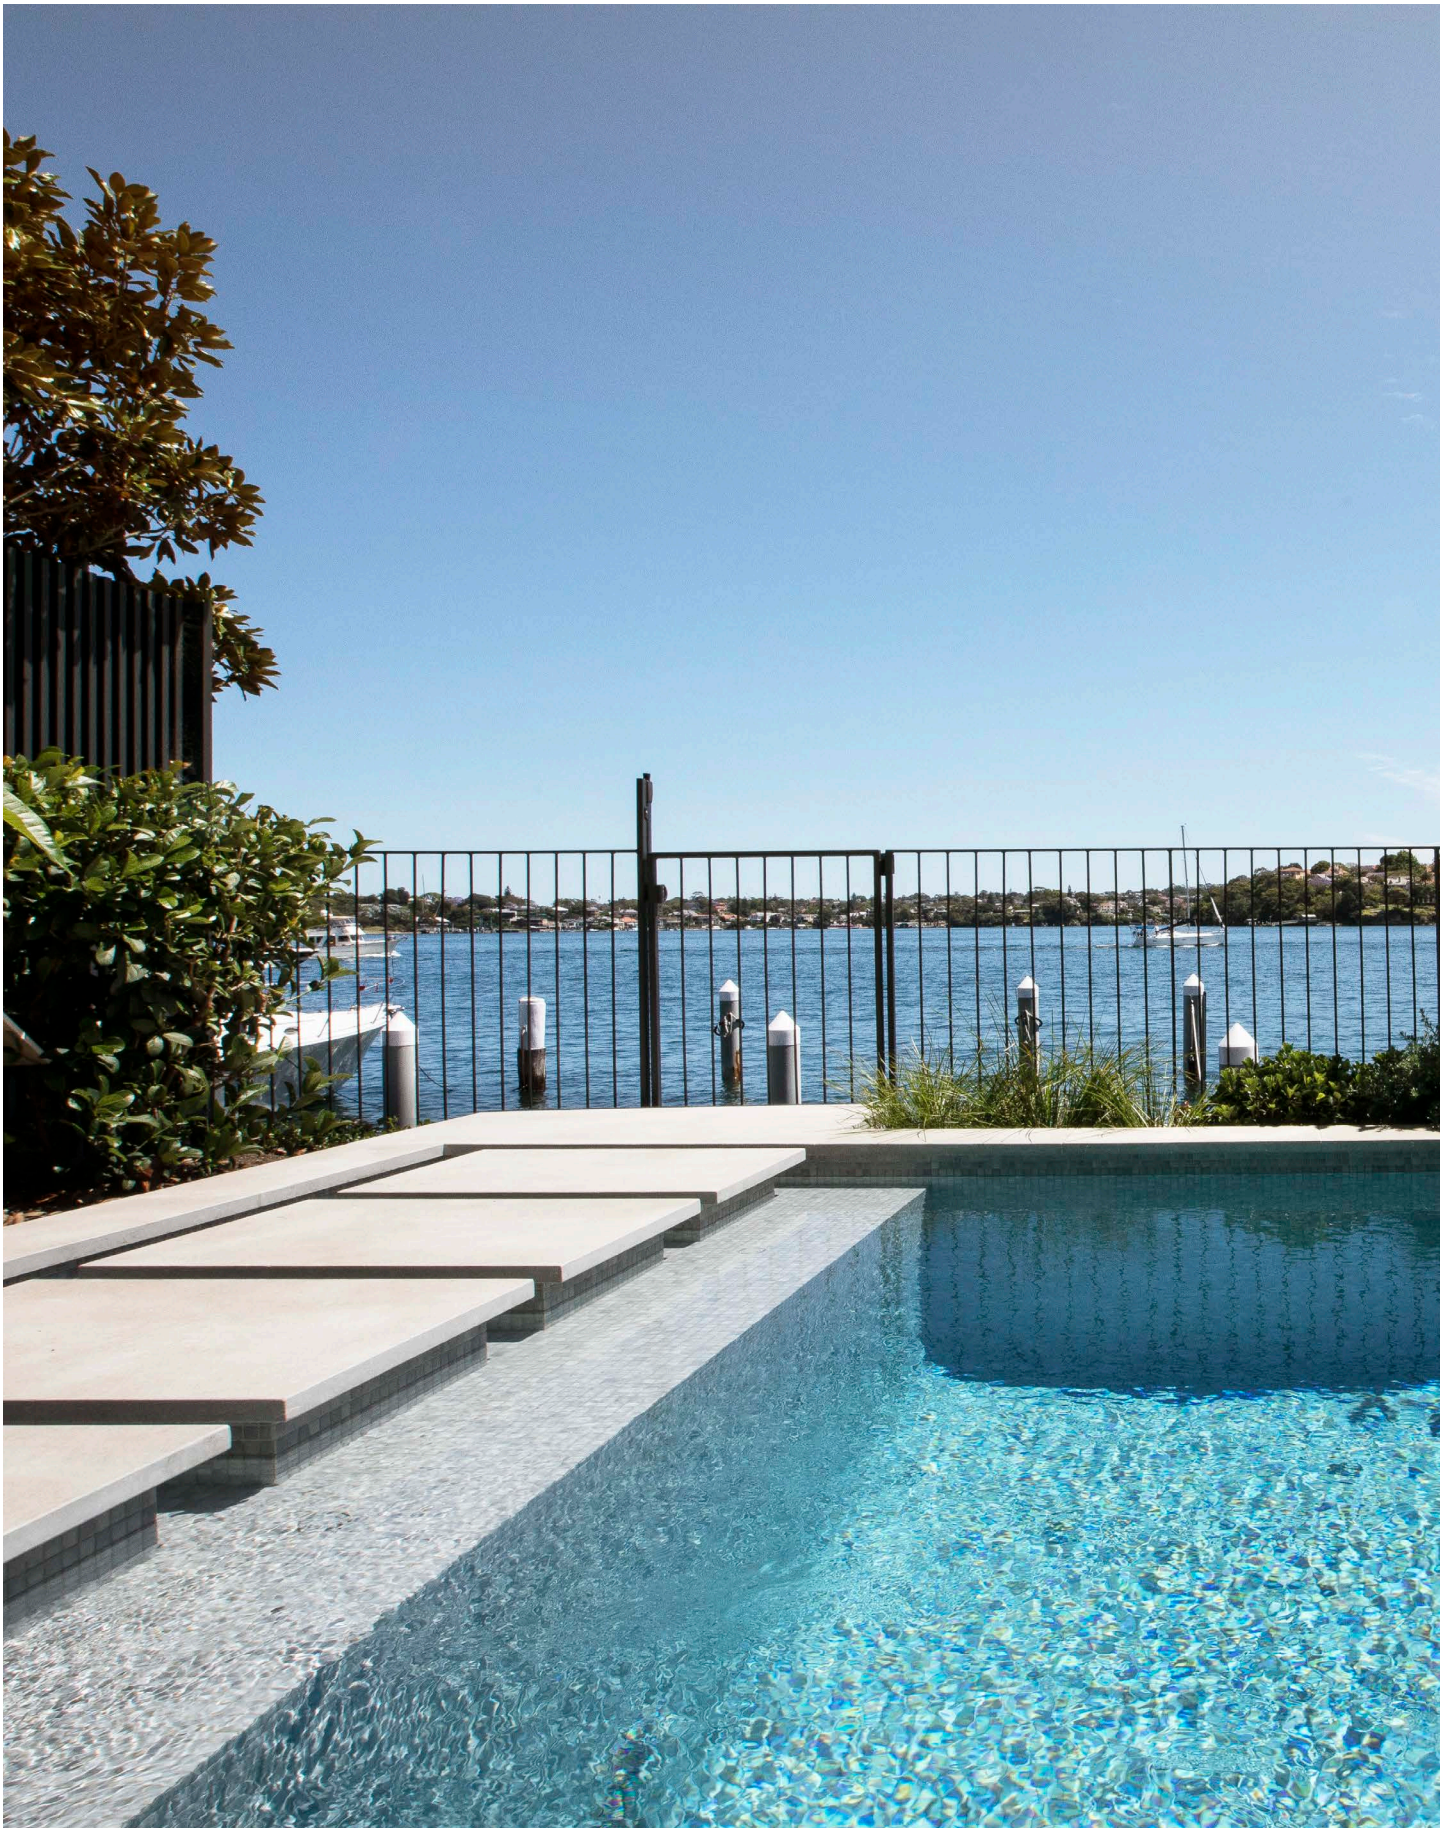

These collections offer a variety of vibrant options including light aqua tones, blue tropical hues and deep ocean indigos.
